Portfolio Website

Durgapur, West Bengal, India

SUMMARY

Highly motivated Computer Science diploma student with a strong foundation in Python, C, and modern web development. Skilled at building responsive, visually stunning websites and practical automation tools. Demonstrated self-learning capability through 10+ hands-on projects. Quick learner passionate about adopting new technologies — seeking freelance projects and software internship opportunities to contribute innovative solutions while growing under experienced mentorship.

PROJECTS

MAISON Store — Luxury E-Commerce Website

[View Live](#)

HTML5 · CSS3 · JavaScript · GitHub Pages

- ▶ Built a luxury fashion e-commerce site with product catalog, bag & wishlist, and size guide
- ▶ Implemented full shopping cart using vanilla JS with dynamic UI state management
- ▶ Achieved 100% mobile responsiveness using CSS Flexbox and Grid with cross-browser compatibility

Mondol Restaurant — Fine Dining Website

[View Live](#)

HTML5 · CSS3 · JavaScript

- ▶ Designed elegant restaurant website with menu showcase, chef profile, gallery and testimonials
- ▶ Implemented interactive table reservation system with form validation and smooth UX

Rao's Restaurant — Premium Indian Dining Site

[View Live](#)

HTML5 · CSS3 · JavaScript

- ▶ Built premium dining site with animated counters, full menu, photo gallery and reservation flow
- ▶ Applied advanced CSS animations and JavaScript micro-interactions throughout

Imli Mix — Frontend Web Application

[View Live](#)

HTML5 · CSS3 · JavaScript · GitHub Pages

- ▶ Developed fully responsive web app with clean UI/UX implementing modern frontend best practices
- ▶ Deployed and maintained live production environment via GitHub Pages with CI workflow

Python Automation Scripts & Tools

Python · OOP · File I/O · Automation

- ▶ Developed multiple automation scripts using file handling, string manipulation and system operations
- ▶ Applied OOP principles to design modular, maintainable and scalable code architecture
